Subject: Register of Mentors for Fellows and Trainees of the College
Approval Date: August 2008, November 2013, October 2017, September 2021
Review Date: October 2025
Review By: Board of Directors
Number: 2/2008

The College maintains a register of Fellows who are prepared to act as mentors to other Fellows and Trainees. These mentors may be from any discipline and cover a range of issues including:

- How to deal with a Pathologist who has potential performance issues
- How to set up a laboratory
- How to deal with problem Trainees
- How to deal with problems with a supervisor
- How to develop a Research Proposal/Grant Application

A call for mentors will be placed in Pathology Today annually at the time of the general Call for Nominations. The Register will contain the names and contact details of mentors and describe the areas where they have expertise to provide mentoring.

The mentor register will be available on the College website.
