

SPR*/ICCR ⁱ	Data element	Response			
	Fresh tissue received	No	Yes	<i>If yes, describe any additional tests/ biobanking performed</i>	
	Procedure performed	Text <i>As stated by the clinician</i>			
G2.01	Type of procedure				
	Cervical excision type	1	2	3	
	Modality	Electrosurgical excision eg Loop excision eg LLETZ, LEEP	Cold-knife cone biopsy	Laser cone	Other, specify
S2.02	Specimen labelled as	Text			
S2.03	Specimen orientation markers	Not present	Present, <i>specify</i>		
S2.04	Number of pieces	—			
S2.04	Specimen measurements	__x__x__ mm		<i>For non-conical specimens where length of canal and ectocervix diameter is not possible</i>	
	Length of canal	__mm		<i>For conical excisions</i>	
	Length of specimen	__mm		<i>For conical excisions</i>	
	Diameter of ectocervix	__mm		<i>For unorientated conical loop/laser specimens</i>	
	In 3-9 o'clock plane	__mm		<i>For orientated conical excisions</i>	
	In 12-6 o'clock plane	__mm		<i>For orientated conical excisions</i>	
G2.02	Specimen description	Text			
S2.05	Macroscopically visible lesions	Absent	Present	Number of lesions __	
	Ink colours used and margins denoted	Text			
G2.03	Other relevant macroscopic information	Text <i>E.g. any additional orientation; specimen integrity (if disrupted) etc.</i>			
G2.04	Block identification key	Text <i>Describe nature and site of blocks</i>
