Haematology Trainees' Night

Clinical Haematology @ St. Vincent's

Clinical Haematology: Environment

- Consultant Support: Eight Haematologists on ward service plus more in the clinic
- Haematologists with sub-specialty interests to cover most areas of care including non-malignant haematology
- All areas of haematology covered (except dedicated Haemophilia and allo-transplants)
- HMO Support: 4 HMO2 positions to cover inpatient, after hours and day ward
- State of Art Day Cancer Centre
- One week in five or six on-call roster shared with oncology and lab haem registrars

Clinical Haematology: Highlights

- Most patients are new diagnosis. So ability to initiate diagnostic algorithm and follow care.
- Exposure to the full range of non-malignant consultative haematology and all haem malignancies
- Wide referral pattern from regional Victoria , from consultant private rooms and busy surgical services
- Exposure to the practice of haematology @ PMCC as well in the shared SVHM/PMCC position

Clinical Haematology: Positions Available

Positions Available in 2019:

- **1 Clinical Haematology registrar; shared position with PMCC (6 months at each site). Essentially registrars are jointly selected between the two sites.**
- **1 Clinical Haematology registrar; 12 months at SVHM.**
