

Changes to the General Pathology Trainee Handbook for 2019

Please note the following changes to the Handbook

Page	
8	<p>From 2019, autopsies are no longer required for the Fellowship program and there is no autopsy examination. Reference to these requirements has been removed from the General Pathology Trainee Handbook and also from the Anatomical Pathology Trainee Handbook.</p> <p>However, trainees who anticipate taking the Autopsy Certificate are advised to take opportunities to do autopsies and to document them on the consultant sign off form and in the eLog. Autopsy experience must have been documented in order to be considered as for eligibility to satisfy Autopsy Certificate requirements</p>
14	<p>Note the additional CbD and PbD requirements for haematology and see the Haematology Trainee handbook for details</p>
