Retrospective accreditation of training and prior experience

The RCPA Post Fellowship Diploma of Dermatopathology training program requires a candidate at the end of training to be competent in four areas of professional activity, ie, discipline-specific functions of a dermatopathologist, management functions, research/scholarship, and to have the required professional qualities.

If you wish to receive exemptions for training time and/or examinations, refer to the Post Fellowship in Dermatopathology Handbook <https://www.rcpa.edu.au/Trainees/Curriculum> and use the tables below to detail how you have partially or completely achieved the learning outcomes in each area, through your professional qualifications, previous training and experience, research and publications.

Please include appropriate supporting documentation with your application.

Discipline-specific functions as a medical specialist in the laboratory

- 1.1.1 Foundation knowledge
- 1.1.2 Dermatopathology
- 1.2 Accession, management and processing of specimens
- 1.3 Storage and retrieval of laboratory data
- 1.4 Analysis of laboratory data
- 1.5 Developing and reporting a professional opinion

Functions as a manager in the laboratory

- 2.1 Quality management
- 2.2 Laboratory safety
- 2.3 Compliance with legislation
- 2.4 Managing people
- 2.5 Managing resources
- 2.6 Information fundamentals

Research and scholarship

- 3.1 Research and critical appraisal
- 3.2 Undertaking self-education and continuing professional development
- 3.3 Educating colleagues and others

Professional qualities

- 4.1 Ethics and confidentiality
- 4.2 Communication
- 4.2 Collaboration and teamwork
- 4.4 Cultural competence
