

SPR* / ICCR ⁱ	Data element	Response			
	Fresh tissue received	No	Yes	<i>If yes, describe any additional tests/ frozen sections/biobanking performed</i>	
S2.01	Number of specimens received	<i>For each specimen, record the following:</i>			
S2.03	Intraoperative consultation performed	No	Yes, <i>specify type</i>	Frozen section Imprint cytology	Gross exam. for margin assessment Other, <i>specify</i>
S2.03	Specimen type	Diagnostic open biopsy Wide local excision		Mastectomy Mastectomy post neoadjuvant therapy	Re-excision
S2.02	Specimen laterality	Left	Right	Undesignated	
S2.04	Specimen orientation	Not orientated	Orientated	<i>If orientated, list markers & locations and colours used. Record the plane of dissection in orientated specimens (e.g. medial to lateral/ superior to inferior/ superficial to deep).</i>	
S2.05	Method of localisation	Hookwire	Carbon track	Not applicable	
S2.06	Specimen size	__x__x__mm <i>If orientated, record as follows:</i>			
		Medial-lateral length __mm	Superficial-deep length __mm	Superior-inferior length __mm	
S2.10	Skin	Absent	Present	<i>If present, record dimensions & describe any abnormalities.</i>	
S2.10	Skin dimensions	__x__mm			
S2.10	Skin abnormalities	Absent	Present, <i>select all that apply</i>	Ulceration	Satellite nodules Other, <i>specify</i>
	Nipple	Absent	Present	<i>If present, describe. Select all that apply.</i>	
	Nipple description	Normal	Paget's disease	Peau d'orange	Other, <i>specify</i>
S2.07	Specimen weight	__g			
S2.08	Macroscopically visible tumours?	Absent	Present	<i>If present, record number of foci</i>	__
		<i>For each tumour: (if >1 designate accordingly)</i>			
S2.09	Nature of tumour	Text			
S2.09	Tumour size	__x__x__mm			
	Tumour location	<i>If WLE state slice numbers, if mastectomy state quadrant/clockface orientation</i>			

S2.09	Distance to nearest separate tumour foci	__mm	<i>If > 1 tumour</i>
S2.09	Min. macroscopic margin clearance from any tumour deposit	__mm	<i>Record distances of tumour to all margins <5mm. Specify margin.</i>
S2.11	Muscle	Absent	Present
	Lymph nodes		
S2.12	Sentinel lymph node <i>For each record</i>		
	Site	Axilla	Intramammary chain
	Radioactive count	—	
	Uptake of dye	No	Yes -blue
	Size	__x__x__mm	
S2.12	Non-sentinel lymph node/tissue		
	Total number of nodes	—	
	Size range	__to__mm	
	Description	Text	
G2.01	Other relevant macroscopic information	Text	<i>E.g. any additional orientation; specimen integrity (if disrupted)</i>
S2.13	Block identification key	Text	<i>Describe nature and site of blocks</i>
