</table>
| AM     | 0800 Haematology Journal Club (clinical & laboratory haematology medical staff)  
0900 General Haematology Outpatients R1  
Blood films from the weekend | Registrar 2 Protected Morning  
Bone marrow biopsies  
1200 Clinical Haematology Unit Meeting | 0800 Tutorial with Dr Chris Hogan  
Bone marrow biopsies | 0900 Present bone marrow biopsies (along with relevant flow and molecular results) to the Clinical Haematology staff (multi-header microscope room)  
0930 Haemostasis / Thrombosis Outpatient Clinic R2  
Bone marrow biopsies |
| PM     | Reporting BMAT, and associated flow cytometry and FBEs  
Warfarin dosing  
Blood films  
Bone marrow biopsies  
Flow cytometry | Reporting BMAT, and associated flow cytometry and FBEs  
Warfarin dosing  
Blood films  
Bone marrow biopsies  
Flow cytometry | 1400 Blood Transfusion Committee (each 2 months) R2  
Warfarin dosing  
Blood films  
Bone marrow biopsies  
Flow cytometry | 1330 Molecular Haematology Meeting  
Preparation & presentation by R3 (fortnightly) |
|        | 0800 Haematology Laboratory Journal Club (fortnightly)  
Registrar 1 presenting if no internal or external consultant presenting * |        | 0800 Haematology Laboratory Journal Club (fortnightly)  
Registrar 1 presenting if no internal or external consultant presenting * |        |

*Registrar 1 Protected Morning
Austin Haematology Registrar Other Duties Table

In addition to the duties shared by all 3 registrars – as per the weekly timetable in the table above. On a fortnightly basis, other haematology laboratory responsibilities shall be assigned to individual registrars as follows. Each fortnight there will be a rotation of those responsibilities. See separate timetable of these Rotating Registrar Special Duties.

Registrar Special Duties for each of the 3 Registrars – see associated rotation roster for these special duties

<table>
<thead>
<tr>
<th>Registrar 1</th>
<th>Registrar 2</th>
<th>Registrar 3</th>
</tr>
</thead>
</table>
| • Thalassaemia / Haemoglobinopathy reporting (capillary electrophoresis and gel electrophoresis) with consultant – mainly on Friday when gels are available. | • Transfusion, including:  
  o investigation of transfusion reactions  
  o preparation of haemovigilance reports for BTC and STIR  
  o allo antibody investigations  
  o workups of patients with AIHA  
  o massive transfusion support  
  o attendance at the Austin BTC  
  o attendance at Mercy BTC  | • FBEs not BMAT related |
| • Thalassaemia follow-ups (e.g. contacting doctors and the genetic counsellors re couples at risk) | • Haemostasis / thrombosis, including:  
  o thrombophilia workups  
  o peri-procedural haemostasis issues  
  o investigation of bleeding disorders  
  o anticoagulant monitoring queries  
  o platelet aggregometry | • Stem cell / cryopreservation work |
| • * Laboratory Haematology Journal Club – Registrar 1 presents if a Lab Haem consultant or external invited speaker not presenting | | • Preparation of quarterly BMAT engraftment data |

- Molecular Haematology reporting with Dr Rishu Agarwal – Tuesdays & Fridays as required
- Preparation for the fortnightly Molecular Meeting
