

SPR*	Data element	Response			
	Fresh tissue received	No	Yes	<i>If yes, describe any additional tests/ frozen sections/biobanking performed</i>	
	Procedure	Text		<i>As stated by the clinician</i>	
	Specimen dimensions				
	Bone biopsy (<i>except bone marrow trephine, see below</i>)	__ x __ mm			
	Other specimens	__ x __ x __ mm			
	Anatomical components present	Bone, <i>specify</i>	<i>with/without</i> articular cartilage	Meniscus	Other, <i>specify</i>
	Specimen appearance				
	Colour	Text			
	Crystalline deposits	Absent		Present, <i>describe appearance under polarised light</i>	
	Synovial tissue, <i>describe any tears if present</i>	Text			
	Bone marrow trephine				
S3.13	Number of cores	__			
S3.13	Aggregate length	__mm			
S3.13	Adequacy	Adequate for examination		Inadequate	
S3.13	Description, if required	Text			
	Other relevant macroscopic information	Text		<i>E.g. any additional orientation; specimen integrity (if disrupted) etc.</i>	
	Block identification key	Text		<i>Describe nature and site of blocks</i>
