Barwon Health Clinical Haematology

Philip Campbell
Melbourne faces death by gridlock, even with billions spent on new roads

12 kilometres of congestion make Burke Road Australia's most clogged artery
Geelong
Other Geelong Attractions ....
Highlights of Geelong

1) Broad range of malignant and non-malignant haematological experience, including autologous stem cell transplantation.
2) Active clinical trials unit (HOTT)
3) Teaching and research opportunities through Deakin University School of Medicine
4) Well maintained, computerised system for medical records, outpatient bookings and chemotherapy prescription.
5) Highly competent, friendly and collegial clerical, nursing and allied health staff, supportive consultants and ‘vibrant’ JMO society
