Urine MCS

Specimen
- Specimen Type
- Macro
- Time

Chemistry
- Glucose
- Bilirubin
- Ketones
- Specific Gravity
- pH
- Protein
- Urobilinogen
- Nitrites
- Haemoglobin
- Leucocyte Esterases

Microscopy
- Cells
- Microorganisms
- Casts
- Crystals
- Other elements

Antibacterial Activity
- 30910-4

Culture
- 630-4

Comment
- None
- Consistent with UTI
- Probable contamination
- Growth unlikely to be significant
- Please submit a repeat specimen for testing if clinically indicated
- Catheter comments
- Sterile pyuria

Notification to infection control and public health departments
