

## **Anatomical Pathologist (Perth, WA)**

**\*\* NEW OPPORTUNITY \*\***

At Australian Clinical Labs, our vision is to be the pathology provider of choice, through the combination of scientific leadership, market leading technology and talented people. We have a mission to empower decision-making to save and improve patients' lives.

Following on from our recent successful recruitment round, we are seeking further expressions of interest from Anatomical Pathologists with a sense of adventure, energy and drive who would like to be a part of our vision in Western Australia.

Australian Clinical Labs was created through the merger of Healthscope, St John of God and Perth Pathology. Through the long term relationships with these organisations and our public hospital contacts, Clinical Labs is now the leading provider of Hospital/Specialist pathology services in Australia.

We see our future in the industry as taking a leadership role in science, technology, people and process. With 88 accredited pathology laboratories and over 1000 collection centres, we have a strong footprint across Australia. Our WA practice has been servicing the community for over 80 years. Now with new passionate owners and a new name and vision, we invite you to join us to help re-create and expand our histology service.

Applicants must be a fellow of the Royal College of Pathologists of Australasia (FRCPA) or have equivalent recognised qualifications. Information about our company can be found on our website, at [www.clinicallabs.com.au](http://www.clinicallabs.com.au)

To explore this opportunity further please call our Clinical Director, Dr Jenny Grew on 08 9213 2199 or [jenny.grew@clinicallabs.com.au](mailto:jenny.grew@clinicallabs.com.au)
