

	Data element	Response		
	Fresh tissue received	No	Yes	<i>If yes, describe any additional tests/ frozen sections/biobanking performed</i>
	Procedure	Text <i>As stated by the clinician</i>		
	Specimen dimensions	__ x __ x __mm		
	Specimen description			
	Thrombus, if present	Friable	Rubbery	Calcified
	Haematoma, if present	Other, describe		
	Location of dissection flap	Text		
	Haematoma size	__ mm in max. dimension		
	Location of vessel dissection within media	Inner one third	Mid-way through	Outer two thirds
	Periaortic adventitial haematoma	Note if present		
	Stanford type, if assessable	Type A	Type B	
	Other relevant macroscopic information	Text <i>E.g. any additional orientation; specimen integrity (if disrupted)</i>		
	Describe nature and site of blocks	Text
